CBTA now and then

Miguel Marin

Chief Operational Safety, ICAO

EASA CBTA EBT Workshop

Cologne, Germany

20-21 May 2019

Topics

- ICAO 101
- CBTA where are we now
- Look ahead at pilot training and licencing

About ICAO

- UN specialized agency founded in 1944
- Chicago Convention
- SARPs based on consensus and agreement
- 193 Member States
- Enable seamless operating environment
 - Through uniform implementation of standards and technologies

How do ICAO SARPs work?

- **Chicago Convention**

- **19 Annexes**

Annex 1 - Personnel Licensing

- **5 PANS* Documents**

PANS-TRG (Doc 9868)

- **Guidance Material**

Manual on Evidence-based Training (Doc 9995)

Guidelines for Aviation English Training (Circ 323)

- **ICAO** provides SARPs, PANS and guidance material (provisions) to States

- **The States** establish laws and regulations in accordance with the SARPs and PANS

- **Service providers** develop policies and procedures to comply with State's regulations

Competency-based Training and Assessment at ICAO

- 2006 – ICAO introduced MPL
 - MPL qualifies licence holder to perform co-pilot duties
 - MPL training programmes are ab initio
- First competency-based ICAO licence
 - Focus on achieving specific competencies vs. hour requirements
 - Makes use of training technologies & methodologies
- ICAO published PANS-TRG to support MPL implementation
- 2013 – ICAO introduced EBT provisions in PANS-TRG
 - Alternative for recurrent pilot training
 - Competency-based approach

What is the mission about?

Competencies are not about *what* (tasks) you do in your job but *how* you do your job

First start - MPL

EVOLUTION OF ICAO PROVISIONS ON COMPETENCIES

2006

2009

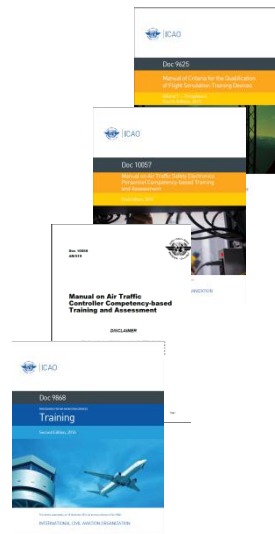

2012

2014

2015

2016

Where to begin?

- New definitions for competency and related terms & concepts
- New description of methodology to design competency-based training and assessment
- Amend PANS-TRG

Moving forward with CBTA

- PANS-TRG Amendment 5 established the baseline

*To facilitate effective implementation of CBTA,`
All ICAO competency provisions should align to it*
