

Bishkek, December 2019

## **Work package 2**

### **Safety Oversight System – Follow-up Republic of Kyrgyzstan**

Within the framework of the EU-funded Eastern Partnership and Central Asia Project (EaP/CA), on-site support to Kyrgyzstan was provided from September to December 2019 to continue strengthening the organisational structure (safety oversight system) within the country's Civil Aviation Authority (Civil Aviation Agency of the Republic of Kyrgyzstan).

The implementation of these tailor-made activities is stemming from the Final Report/results of a comprehensive evaluation of Kyrgyz CAA's safety oversight system performed in 2018. The 2019 support included the following activities:

- ✓ On-site support for developing a formal Management System;
- ✓ On-site support for developing a Quality Department and internal quality management system.

*This project is funded by the European Union*
