

Cologne 21 November 2018

## **Workshop on ETSO/AP DOA in Ukraine**

In the framework of the EASA-SAAU Ukraine Airworthiness Convergence Project, EASA delivered on 20 and 21 November 2018 an ETSO/AP DOA workshop. The objective was to provide participants with an overview of the ETSO (European Technical Standard Order) certification process and procedural requirements linked to the ETSO process. The workshop included topics such as legal framework, AP DOA (Alternative Procedures to Design Organisation Approval) Handbook, management of ETSO process and ETSO authorisation, etc.

Altogether, 34 training participants from SAAU and the local industry attended the workshop that was delivered by EASA Experts.
