

Baku, May 2019

Work package 2

Safety Oversight System – Follow-up Azerbaijan

Within the framework of the EU-funded Eastern Partnership and Central Asia Project (EaP/CA), on-site support to Azerbaijan was provided during the first half of 2019 to continue strengthening the organisational structure (safety oversight system) within the country's State Civil Aviation Agency - SCAA. This was done by implementing the tailor-made activities stemming from the Final Report/results of comprehensive evaluation of SCAA's safety oversight system.

The follow-up actions could be finalised in May 2019 with focus on developing a new organisational structure and management system manual, the staffing and training system as well as the quality/compliance monitoring system.

This project is funded by the European Union
