

Kiev, March 2019

Work package 2

Safety Oversight System – Follow-up Ukraine

Within the framework of the EU-funded Eastern Partnership and Central Asia Project (EaP/CA), an on-site support activity was organised in Ukraine to continue strengthening the organisational structure (safety oversight system) within the State Aviation Administration of Ukraine, by means of implementation of the tailor-made activities stemming from the Final Report/results of comprehensive evaluation of SAAU's safety oversight system.

The activity was held from 25 to 29 March with the objective to support the developing of a new Organisational Chart and Management System Manual, developing of the Standardisation/Quality Department and internal quality system and developing an overall training system.

This project is funded by the European Union
