Work package 1

Support in revising an aviation act for Armenia

Within the framework of the EU-funded Eastern Partnership and Central Asia Project (EaP/CA) a support to Armenia was provided to revise their Aviation Act.

The main objective of this assignment was to provide legal expertise in the field of international air law by supporting the Civil Aviation Authority of Armenia in revising its national Aviation Act, and therefore provide, after legal analysis of the Act, a list of legal and strategic guidelines for the Armenian CAA to update the Aviation Act as preparation for the future implementation of the EU “aviation acquis”.

This project is funded by the European Union
