

EU SAF Clearing House

The approval of new Sustainable Aviation Fuels (SAF) pathways is key to increasing the production of SAF. The European Union SAF Clearing House is an impartial one-stop-shop for fuel producers and original equipment manufacturers to get the support they need to develop new SAF.

The EU SAF Clearing House supports the uptake of SAFs through

Three Pillars:

ASTM D4054* Service

Support the fuel approval process

Sustainability Assessment

Assess environmental impacts of SAF to reach eligibility criteria

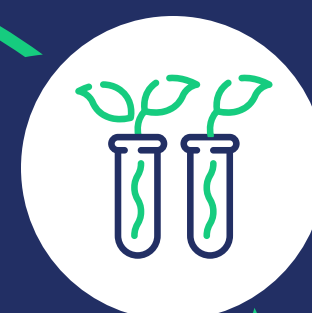

Championing SAF

Disseminate & explain challenges in SAF deployment

Pre-screening, technical advice and testing support

Provision of testing capabilities

Services by the EU SAF Clearing House

Advice on sustainability and likelihood of meeting market entry requirements

Facilitate international coordination

* ASTM D4054: the recognised industry standard practice for evaluating new aviation fuels and additives.

If you are a fuel producer looking for support or an organisation wishing to join the network of testing facilities send an email to: info@eusafclearinghouse.eu

The EU SAF Clearing House is funded by the European Union and managed by the European Union Aviation Safety Agency.
