

# FAQ n.115292

## FAQs:

What I need to care about: "At all times", Passenger Health Safety - COVID-19, Passengers

### **Question:**

Where can I throw away a used face mask?

#### Answer

Airports and airlines have been asked to instruct passengers on the safe disposal of used medical face masks: for example through no-touch bins and single-use waste bags. Please look for specific information on this during your journey.

Although medical face masks may contain plastic fibers or paper, they are not recyclable.
