VIRTUA — Blockchain for airworthiness in aviation – Introductory Webinar

Online event

Organised by: EASA

Date:
13 Dec 2023
13/12/2023, 13:00 - 15:30 CET (UTC +1)

Event Materials

Documents

Presentation: VIRTUA - D-2.1 1st Stakeholder Workshop (13 December 2023)

Recording: VIRTUA - D-2.1 1st Stakeholder Workshop (13 December 2023)

Description

EASA is developing a case study on the implementation of blockchain technologies, including their potential benefits and constraints, as part of the research project VIRTUA – Digital Transformation – Case Studies for Aviation Safety Standards – Blockchain technology in aviation airworthiness management.

Join us for a workshop that aims to break the blockchain myth: exploring the integration of blockchain technology to enhance traceability, data management, and compliance within the aviation industry.

Whether you are a stakeholder in aviation or blockchain technology, your insights and participation will be invaluable.
