

**FAQ n.19267****FAQs:**

[Opportunities for graduates](#), [Recruitment](#)

**Question:**

**I have applied before for the Junior Qualification or Graduate Traineeship Programme and was rejected. Can I try again?**

**Answer:**

Yes, you can apply again to a future opening. However, you must meet the eligibility criteria as stated in the job posting and if you find an opportunity matching your interests and competencies, you must submit a new application. Your personal data and your CV (i.e. candidate profile) is saved from your previous application thus your second application attempt will be faster.
