Description

Back to the future of safe UAS operations

The aim this year is to bring together regulatory bodies and industry experts from all over the world to discuss:

- UAS Regulation implementation – Review of lessons learned, challenges and opportunities

- Building IAM ecosystem – setting up a realistic implementation programme implementation
- Implementing U-space - Airspace integration steps

Participants will include High level representatives from EU institutions, European Member States and National Aviation Authorities, Non-European National Aviation Authorities, state organisations involved in drones but also in city planning, as well as representatives from with the aviation industry.

The two-day EASA High Level Conference on Drones will take place March 21-22 2023 and is hosted by RAI together with the Amsterdam Drone Week (ADW) which is the global platform for sharing knowledge on current solutions, innovation and crucial regulation pertaining to Unmanned Aircraft System (UAS) industry. During the three days you will have access to the ADW Hybrid, the EASA High Level Conference on Drones and you will be able to connect through ADW Matchmaking with selected delegates, speakers and partners. During ADW you can visit the EASA High Level Conference (HLC) on Drones and ADW Hybrid.
