

EASA Certification Information

No.: 2013-06
Issued: 02 July 2013

Subject: **Transfer of Supplemental Type Certificate from ACI Systèmes to Jet Business and Commuter Aircraft**

Type Certificate No: EASA STC EASA.A.S.03304

Issued by: European Aviation Safety Agency

Former Holder of the Certificate: ACI Systèmes,
EASA DOA ref: EASA.AP232

New Holder of the Certificate: Business and Commuter Aircraft,
EASA AP DOA ref: EASA.AP072

Context:

Business and Commuter Aircraft has made an application, dated 23 April 2013 to EASA for the transfer of Supplemental Type Certificate (STC) EASA.A.S.03304 to Business and Commuter Aircraft. This STC was an orphan STC formerly held by ACI Systèmes (whose ceased activity and whose alternative procedures to DOA approval AP232 was cancelled on 14 October 2011).

Business and Commuter Aircraft holds an EASA approval of procedures demonstrating capability for design (ref. EASA.AP072) and is deemed to be able to undertake the obligations under 21.A.118A and for this purpose, has demonstrated its ability to qualify under the criteria of 21.A.112B of the Annex I (Part 21) to Regulation (EC) No 748/2012.

As a consequence, EASA has accepted the transfer and re-issued the Type Certificate.

Former STC reference	New STC reference
EASA.A.03304	10015004, rev. 1

All Airworthiness Directives (ADs) related to these products are still applicable unless replaced or cancelled.
