

Part-CAMO Approvals - Documentation Index	Ref #	FO.CAMO.00009-002
---	-------	-------------------

**1. Scope and applicability**

The documentation associated to this index is intended to provide guidance for:

- (a) EASA Part-CAMO organisations having their principal place of business located in a third country which are not certified under the provisions of a bilateral agreement signed with the EU;
- (b) EASA Part-CAMO organisation having their principal place of business in the EU Member States for which the oversight of the organisation has been transferred to EASA pursuant to art. 64 or 65 of Regulation (EU) 2018/1139; and,
- (c) EASA when acting as the competent authority for those organisations.

**2. Contextual documents**

Commission Regulation (EU) No 1321/2014 of 26 November 2014 on the continuing airworthiness of aircraft and aeronautical products, parts and appliances, and on the approval of organisations and personnel involved in these tasks, as amended.

Commission Implementing Regulation (EU) 2019/2153 of 16 December 2019 - on the fees and charges levied by the European Union Aviation Safety Agency, and repealing Regulation (EU) No 319/2014.

MB decision 01-2017 – repeal of MD Decision 01-2011 on allocation of certification tasks to national aviation authorities and qualified entities.

Regulation (EU) 2018/1139 of the European Parliament and of Council of 4 July 2018 on common rules in the field of civil aviation and establishing a European Union Aviation Safety Agency and repealing Regulation (EC) No 216/2008

**3. EASA Guidance Material**

In the EASA system, three main levels of Regulatory material exist:

- Implementing Rules (IR) are binding in their entirety and used to specify a high and uniform level of safety and uniform conformity and compliance. The IRs are adopted by the European Commission in the form of Regulations.
- Acceptable Means of Compliance (AMC) are non-binding. The AMC serves as a mean by which the requirements contained in the Basic Regulation, and the IR, can be met
- Guidance Material (GM) are non-binding explanatory and interpretation material on how to achieve the requirements contained in the Basic Regulation, the IRs, the AMCs and the CSs. It contains information, including examples, to assist the user in the interpretation and application of the Basic Regulation, its IRs, AMCs and the CSs.

The EASA CAMO User Guides, should be considered as guidance material published by the Agency when acting as competent authority, to both support applicants and approval holders in the development of the organisation procedures and to ease the approval of the organisation procedures by the competent authority.
