

12 July 2021

AERO-MEDICAL REQUIREMENTS IMPLEMENTATION BEST PRACTICES Workshop

The workshop on aero-medical requirements implementation best practices objective is to increase participants' level of understanding for transposition and implementation of Regulation (EU) 1178/2011 and Regulation (EU) 2015/340 on aeromedical requirements, as well as to share best practices from an EU National Aviation Authority perspective.

The workshop covered following topics including practical case studies where possible:

- Overview of authority and general aero-medical requirements
- NAA Medical assessor training requirements, tasks and responsibilities
- Overview of NAA aero-medical processes, procedures, checklists and tools used
- Medical assessors' tasks (review, medical confidentiality, assisting to AME/AeMC, AME training...)
- Certification and oversight planning, procedures and checklists including case study - initial AeMC (e.g. personnel nomination, manual approval, extension of privileges)
- Conversion of national AME/AeMC certificates

The activity was implemented from 05 - 08 July 2021.

In total 12 participants from 7 beneficiary countries attended the workshop.
