EaP/CA project

WP 4: Competency Development:

"ICAO CMA on-line framework Workshop"

The Onsite support as regards ICAO CMA Online Framework under the EASA-EaP/CA project took place in Bishkek, Kyrgyzstan from 26 to 30 November 2018. Activity was conducted in co-ordination with the ICAO EUR/NAT Regional Office in Paris.

The objectives of the technical assistance were enhancement in the level of effective implementation of ICAO SARPs to reach the global target levels, their understanding on the audit methodology, how to prepare answers and documentary evidence for filing through the ICAO restricted website OLF.

This project is funded by the European Union
http://europa.eu/

Implemented by: EASA – European Aviation Safety Agency, an Agency of the European Union   http://www.easa.europa.eu/

and ECAC - European Civil Aviation Conference for aviation security http://www.ecac-ceac.org

The assignment was tackled by focussing on the attendees need to address ICAO USOAP/ICVM audit preparation with the objectives for knowledge sharing and practical demonstration on the use of OLF. Valuable information was presented to the participants about the latest development in the State Safety Programme, work of the ICAO auditors and what they would expect when conducting the USOAP/ICVM audit.

At the end of the 5 days training, all attendees that included experts from Airworthiness, Flight Standards, Air Navigation Services, Personnel Licensing and Aerodromes offices developed a very good understanding on the audit and use of OLF.

The activity was well attended by fourteen subject matter experts from the CAA of Kyrgyzstan.
