WP 4: Competency Development:

Workshop on Runway Safety

Within the framework of the EU-funded Eastern Partnership and Central Asian Project, a workshop on runway safety was delivered in Chisinau from 11 to 12 July 2017. Its overall objective was to strengthen the capacity of the aviation authorities of the EaP/CA beneficiary countries in the domain of runway safety.

Recent incident or accident reports worldwide have highlighted the importance of this topic and its role in airport safety. The workshop encompassed the Runway Safety Programme and runway incursion and excursion prevention, from the perspective of the aerodrome operators, Air Navigation Service providers and aircraft operators. The interactive workshop brought together EASA experts and experts from the aviation authorities to exchange experience and best practices.

23 civil aviation professionals from the CAA's attended the course.
